Belt Drive Rotary Screw Air Compressors

QRS 3 to 15 HP and QRS 3 to 15 HPD

The Quiet Rotary Screw (QRS) Compressed Air System

Engineered for high performance, efficiency and reliability, the Chicago Pneumatic line of QRS (Quiet Rotary Screw) air compressors can meet the compressed air demands of a tire shop, maintenance shop, vehicle body shop, paint shop or automotive dealership. With its whisper quiet design the QRS can be installed almost anywhere, and is offered with an optional mounted dryer (with tank mounted option only). The QRS is the leading rotary screw compressor for light industrial applications.

QRS 20 to 30 HP and QRS 20 to 30 HPD

The QRS 20-30 is a rugged, rotary screw compressor that combines proven design with superior performance. Ideal for automotive and industrial applications, the QRS is engineered and built to support the most demanding requirements. Every QRS 20-30 can be supplied either base mounted or tank mounted on a 120 gallon receiver tank, and with or without an integrated air dryer. This option can save vital floor space and provide a continuous supply of quality compressed air. Installation into every application is quick and easy - simply supply power to the electrical panel, connect your discharge piping and you'll have instant access to high quality compressed air.

Additional Features and Benefits

(Integrated Dryer and Tank Mounted Options)

- Compressed air enters the QRS where it is triple-filtered before it enters the dryer.
- The QRS is completely piped, wired and installed adjacent to a CPX non-cycling, refrigerated dryer.
- The dryer is powered by separate 115V / 1~ power and comes with electro-pneumatic controls for simple operation and trouble shooting.
- Condensate is extracted from the compressed air by the dryer and is removed by a zero loss electronic drain. The compressed air then passes from the dryer to the receiver tank.
- Air stored in the receiver tank is clean and dry so internal rust is minimized and downstream applications are not polluted. The 120 gallon receiver tank is ASME/CRN approved and supplied complete with manual tank drain and safety relief valve.

Over 100 years of experience

Since 1901 the Chicago Pneumatic name has represented high-performance tools and equipment designed for an extensive range of applications. Today, Chicago Pneumatic has a global reach, with local customer centers around the world. Chicago Pneumatic products are tailored to the needs of the industrial, vehicle service, and construction markets. Every day we develop and manufacture new products that are meant to meet your demands not only today, but tomorrow as well.
